### SILVER MEDAL

McLaren Vale Wine Show, October 2016

### 94 POINTS

As more wines made from vermentino become available it's harder find to find a common theme, and that makes the wines even more interesting when on the bench. What I have found is a faint mixed herb character but can't define it further, I have come to love the way the flavours of vermentino dance and entice as the tumble around the mouth.
